The premier learning opportunity in the Southeast to help today's credit union professionals become tomorrow's credit union leaders.

The Georgia Center,
the University of Georgia's
Conference Center and Hotel/Athens, Georgia

June 11–18, 2010
Athens, Georgia

Since 1971, the Southeast CUNA Management School has equipped graduates with the skills and knowledge to meet the leadership challenges that arise in the credit union industry. Today, more than ever, success depends on the capacity of individuals to continuously learn and to adapt to the changes inside and outside of their credit unions. These changes require leaders who are responsive, flexible, supportive, and creative. At the Southeast CUNA Management School, our mission is to provide students the opportunity to develop these leadership capabilities so that they can contribute to the success of their credit unions. We are committed to creating the best student experience possible through the use of a well-rounded curriculum and experiential opportunities for professional and personal growth. We promise to challenge each student to achieve their highest potential by engaging them in learning activities that stimulate critical thinking and increase confidence. Students leave the school with meaningful, long-lasting relationships with classmates that strengthen the cooperative nature of the credit union movement.

The school is held at the Georgia Center, the University's Conference Center and Hotel in Athens, Georgia. The University of Georgia is the state's flagship institution for higher education. The Southeast CUNA Management School utilizes faculty from the University's Terry College of Business and experts from the credit union industry. The curriculum is designed to be delivered over a three year period with students in residence for course work each summer for eight days. In between the summers, students apply the knowledge gained from the School to projects that require strategic analysis of their credit unions and research of relevant issues facing the credit union industry. Student interaction is also an integral part of the curriculum as each class of students selects officers and creates committees to plan events that facilitate networking and knowledge sharing. Register today to begin your journey toward leadership excellence that will benefit your credit union members and staff.

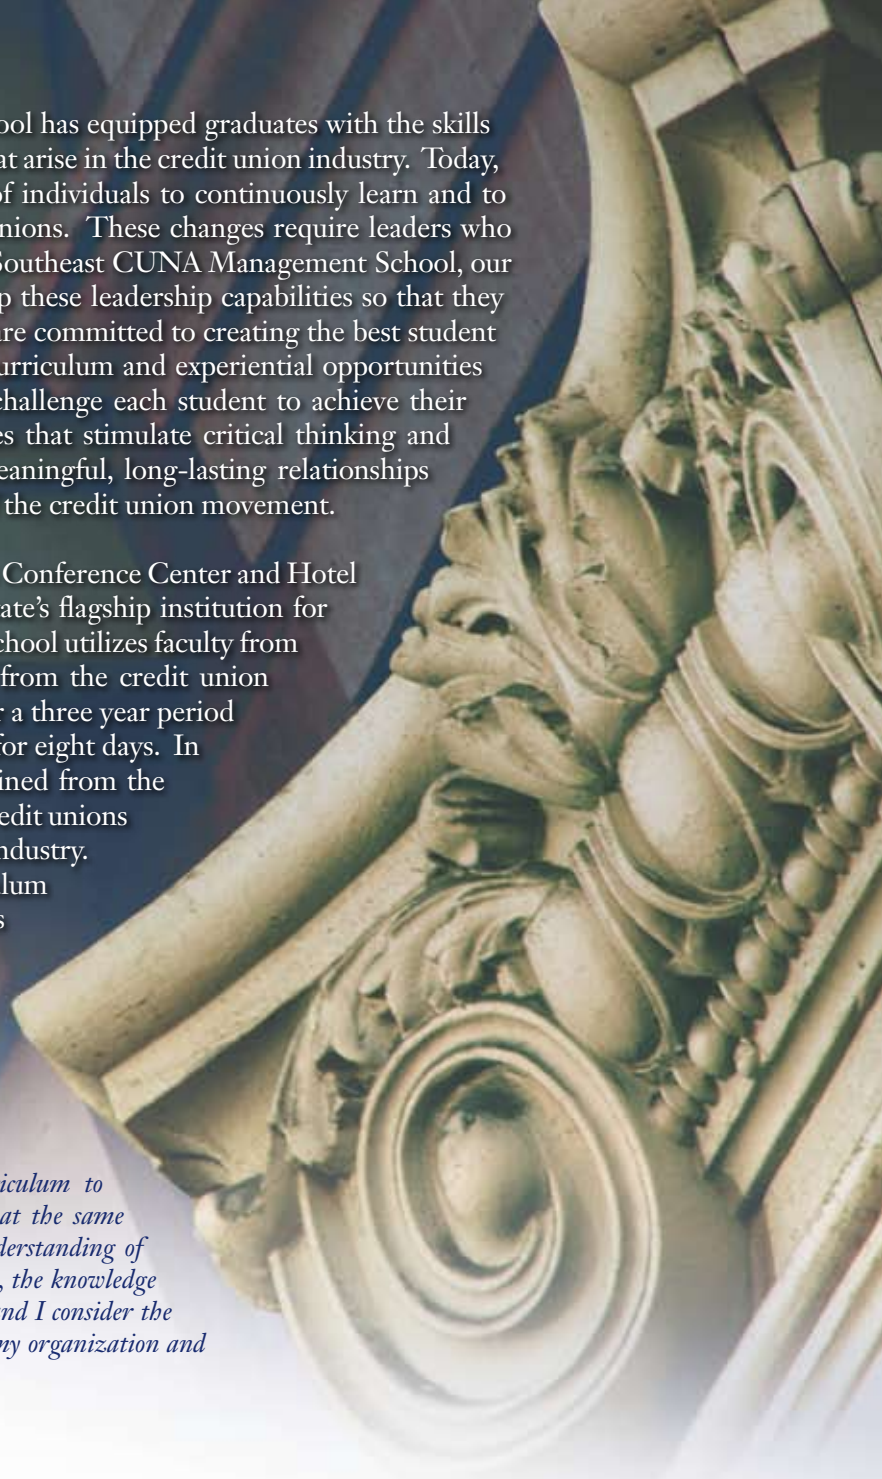

"The opportunities presented through the curriculum to interact with Credit Union professionals while, at the same time, strengthening my leadership skills and understanding of Credit Union operations are priceless. In addition, the knowledge gained my first year has already served me well and I consider the school an invaluable asset to my effectiveness as a leader within my organization and my ability to serve our membership."

The CEU is a nationally recognized unit of measure used to accumulate a standard, permanent record of an individual's participation in noncredit continuing education programs. Southeast CUNA Management School graduates qualify for approximately 5.5 CEUs and acquire skills through comprehensive, hands-on training in a variety of courses.

CEP Elective Credits

CUNA Management School graduates pursuing their Certified Credit Union Executive (CCUE) certification may use this accomplishment as two elective credits, as approved by the CCUE Board of Examiners.

Faculty

The Southeast CUNA Management School faculty is comprised of university faculty, credit union professionals, and other notable experts.

Who Should Attend?

Credit union managers, supervisors, and individuals interested in increasing or enhancing their managerial skills will greatly benefit from this program.
